Customize Viz Trio to be first and flawless on air

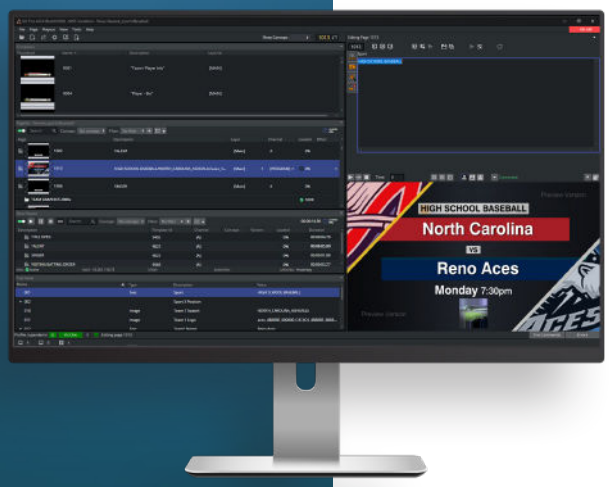

When operating live shows you have the responsibility of playing out branded graphics with accurate data and to respond to any last-minute production changes. To be the best operator, you need a tool that allows you to be fast, efficient, and deliver error-free shows every single time.

With its intuitive interface, straightforward data-integration and custom naming convention, Viz Trio gives you the ultimate control of your graphics playout.

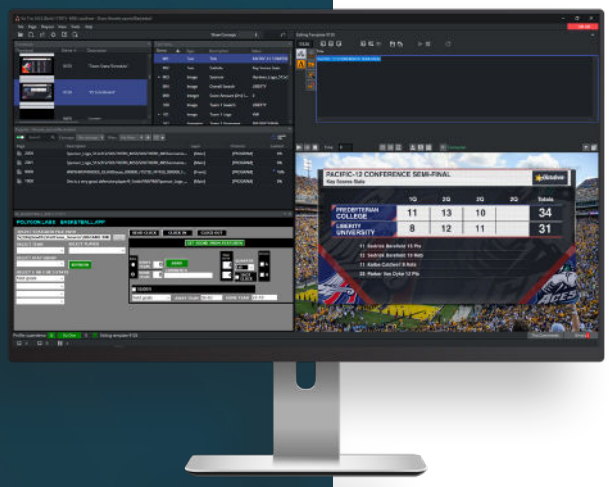

VIZ TRIO

LEARN TO PRODUCE IN HOURS, SET UP DATA INTEGRATIONS IN MINUTES.

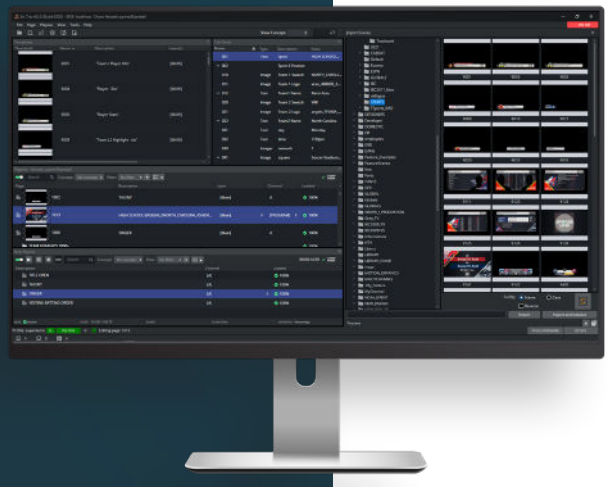

True ease of use

Intuitive interface that follows what you see is what you get principle. You can customize the UI, adjust each section to fit your set-up, even drag and drop it across multiple screens. You can change the layout to suite your operating style and production needs, from Playlist to Preview focused.

Lightning fast

Speedy search and filter on your tab fields and finding the desired elements in seconds. Create your own numerical and alphabetic naming convention for saving media files and pages to quickly locate whatever your production needs. Set-up macros, commands, and keyboard shortcuts to match your style and speed. Be quick and certain that you can manage last-minute changes efficiently.

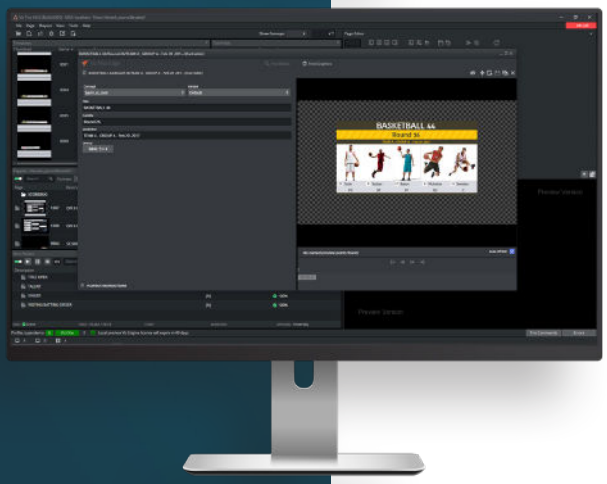

Confidently on-air with no mistakes

Live built-in preview to check all your graphics, animations, and their on-screen location. Preview all Transition Logic layers and be assured that all your graphics will work together – before going on air.

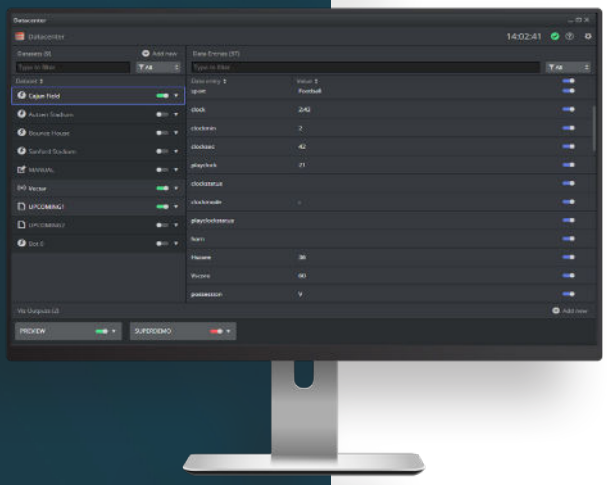

Collaborative

Additionally, collaborate with another operator, on a bigger production, work on the same playlists and pages for even more streamlined production. **No need to stress and worry about sharing and saving, all the files will be instantly available between the two applications.**

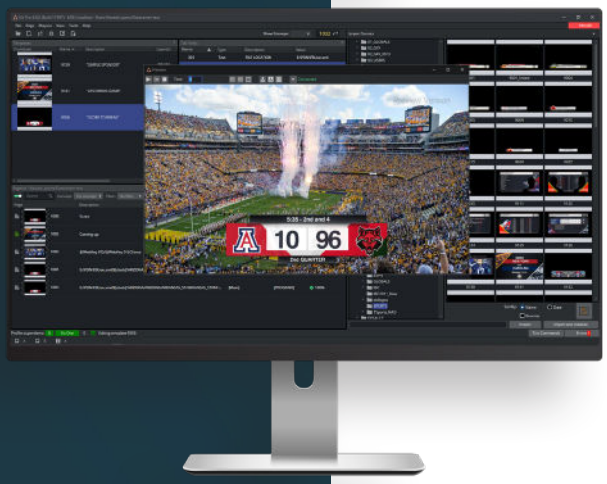

Effortless data-integration

Viz Trio supports sportscast, scoreboard-ocs, text files, manual entering, macro commands, fluid data services, excel, and more. **This means a trouble-free live data integration, that you can effortlessly set-up and take your data capabilities to the next level.** With the Viz Trio data-integration you can comfortably show the automatically populated live data within the chosen graphic.

Import, Configure, Connect

Fast import, page set-up and playout. No need to generate a template before playout as Viz Trio will generate and consolidate the control field. You can configure your engines and output ratios quickly, as well as connect to a NRCS system and NLE plug-in to extend your operational capabilities

Get ready, export, go

You can prepare your whole show remotely or in the studio, export it, and take it with you to the OB van. There is no requirement for any connection back to the studio from the on-site production. As an operator you can take advantage of this flexibility and be even faster with your prepared Viz Trio show.

Why Viz Trio?

1
Intuitive, Fast, Powerful:

Intelligent UI designed to give speed and accuracy to all operators. Viz Trio is a Viz Engine application that supports playing out 3D on-air and AR graphics 24/7, without failure.

2
Customizable, Scalable:

Fully customizable interface to suit the operator set up. A truly scalable playout tool that can be used in an OB van, in a gallery or from your home desk in the cloud.

3
Easy to learn and control:

Viz Trio intuitive design cuts the standard operators learning curve substantially, and with a fully configurable interface it can be deployed to and specialized for any niche use case.

deltatre

Viz Trio continues to be the most flexible solution for our Studio productions using Viz Engine. We're looking forward to using the Viz Trio 4 release in production. The new dockable features opens up lots of new possibilities for our operators.

Thomas Forrest, Technology Director | Sports Experiences at Deltatre

aelive

Viz Trio is critical to AE Live's ability to deliver our services to our global customers. Its interface is intuitive and provides our operational team with the flexibility to manage a graphics workflow at some of the world's biggest sporting events. Trio 4 takes things to a new level by offering a vast amount of new and improved customisation options across the UI. These features will both help our operators better manage their day-to-day challenges and improve our service to our clients, who are always striving to improve their efficiency and workflow.

Tom Hanson, Product Manager at AE Live
