End of Sale/End of Life for Viz Weather version 2.5.3 and all older versions

Updated: 20th of March, 2018

Vizrt announces the end-of-sale and end-of-life for Viz Weather version 2.5.3 and all older versions. The last day to order Viz Weather is 20th of June 2018. Customers with active support and maintenance contracts will continue to receive support from Vizrt until 20th of June 2020. Special customer agreements may supersede this notice.
Table 1 describes the end-of-life milestones, definitions and dates. Table 2 lists the affected products and items.

Table 1. End-of-Life Milestones and Dates for Viz Weather

Milestone	Definition	Date
End-of-Sale Date	The last date to order the product as part of a purchase order from Vizrt. The product is no longer for sale after this date.	20th of June, 2018
End of Software Maintenance Releases Date	The last date that Vizrt may release any final software maintenance releases or bug fixes. After this date, Vizrt will no longer develop, repair, maintain, or test the product software.	20th of June, 2020
End of New Service Attachment Date	For equipment and software that is not covered by a Support and Maintenance contract, this is the last date to order a new service-and-support contract or add the equipment or software to an existing service-and-support contract.	20th of June, 2019
End of Service Contract Renewal Date	The last date to extend or renew a Support and Maintenance contract for the product. The extension or renewal period cannot extend beyond the last date of support.	20th of June, 2019

Last Date of Support	The last date to receive service and support for the product. After this date, all support services for the product are unavailable, and the product becomes obsolete.	20th of June, 2020

Table 2. Products Affected by This Announcement

End-of-Sale Product Name and Code	Product Description
Viz Weather Data Hub (WEA-DH)	Weather data server - Used to process and push data to weather clients and engines. Base configuration includes Storm and CustomWeather datafeed interfaces. In order to get weather data, the customer needs to sign a separate contract with a weather data supplier, or buy a weather data package from Vizrt. Weather data packages from Storm and CustomWeather are available (WEA-STORM-DATA and WEA-CW-DATA)
Viz Weather Editor and Playout (WEA-EXT)	Weather client, used for editing and playout of weather elements. This option includes the playout system (WEA-PUI). The client also includes a local installation of Viz Preview Engine and weather plugins.
Viz Weather Playout System (WEA-PUI)	Weather client for stacking and playout of weather elements. The client also includes a local installation of Viz Preview Engine and weather plugins.
Viz Weather Web Production Manager (WEA-WPM)	Weather Web manager - a system that queues weather elements for Web production (clips, images) based on triggers, such as weather data availability.
Supported weather packages as data interfaces	CustomWeather data interface, StormGeo data interface
Training classes for weather	Vizrt specific training classes offered for Viz Weather specifically
